

entry

```
graph TD; entry[entry] --> body["L0  
LINENUMBER 5 L0  
ALOAD 0  
INVOKESPECIAL java/lang/Object.<init> ()V  
RETURN  
L1"]; body --> exit[exit]
```

This flowchart illustrates a basic block of code, likely representing a method or a specific operation in a virtual machine. It begins with an 'entry' block, which points to a large central block containing several lines of code. The code includes a label 'L0', a 'LINENUMBER' instruction with value 5, an 'ALOAD' instruction with value 0, an 'INVOKESPECIAL' instruction for the 'java/lang/Object.<init> ()V' method, a 'RETURN' instruction, and a label 'L1'. The flowchart concludes with an 'exit' block, which is reached from the bottom of the central code block.

L0

LINENUMBER 5 L0

ALOAD 0

INVOKESPECIAL java/lang/Object.<init> ()V

RETURN

L1

exit
